

**PRETTY CHEERING**--Just a word to the 1973 Hondo Owls--if you don't have a good season, no, an outstanding season, it won't be because you don't have a whole bunch of beauty leading the cheers. These four Hondo Cheerleaders head for Kerrville Sunday where they will attend a week's cheerleader school to be held at Schreiner Institute. Head Cheerleader Kevin Tilley kneels on the ground and in a clockwise direction are Donna Wiemers, Donna Poerner and Pam Helvey. At Schreiner the Hondo cheerleaders will learn yells, moves and formations they will use throughout the entire season.

### MRS. WENDELL BEARMAN

... of Yancey last week joined the long list of people who are unhappy with the incidents going on at the Hondo Cemetery.

Someone stole the sprinkling system she had at her late husband's grave. Needless to say, she was upset and wondered what could be done about it.

But, she did offer some suggestions that might prove feasible if followed. First, she wondered why some civic club like the Hondo Lions Club couldn't take on the project of putting a fence around the cemetery, a fence with a gate that would be closed at a certain time each night.

She realizes this would not stop someone from crawling over the fence, but it would stop the cars driving in there after a certain time. And it would make the love makers and beer drinkers find another spot.

Secondly, she wondered why citizens could not unite and hire a night watchman to patrol the cemetery. This could be done easily enough.

Another thought would be for the City Council to annex the cemetery, thus placing it under police patrol.

Something should, and really it must, be done about the thieves who stoop that low. They have taken water hoses, shrub, and even flowers off the graves after Mother's Day.

I say put a night watchman out there with a twice-barrel shotgun loaded with rock salt and let him take a whack at anyone he catches out there. It won't kill them, but every time they start to sit down for a while, they'll think about what they did.

After the above was written, Leo Laake came in the AH office and was very upset. He had just been out to the cemetery and someone had pulled out three white Crape Myrtle bushes from the grave of his wife.

### ALL MUSEUM MEMBERS

... are urged to note the next Museum meeting is on the 12th of July, 7:30 p.m. in the Medina Electric Coop building. I expect there are going to be some good discussions on several subjects.

The pouting publisher [I believe that's the term Colvern Huegele used to describe me in a letter to the editor] will be on hand to ask a few questions. And it would be nice if all those persons who have indicated to me they want the Museum to remain open all day throughout the summer would be present to voice their opinion.

Now if you aren't a member, you should be. All you have to do is send Mrs. Sally Brucks \$2.00 and you are a member in good standing.

# Marijuana 'rip-off' nets 970 pounds

When you "rip off" 970 pounds of marijuana you can say you have done a darn good job of keeping a few hundred pot smokers from going on a high.

And that is exactly what Hondo police and federal narcotic agents did in Hondo in the wee morning hours Saturday. They hauled in a pickup truck loaded down with 970 pounds of grass.

Five men were charged Monday in federal court with conspiracy and possessing with intent to distribute about 970 pounds of marijuana.

Three of the men were arrested in Hondo Saturday morning, two when the truck was stopped and searched and the other later in the morning. The other two men were arrested in San Antonio.

Charged in the case are John Wesley Hasty, 53, of Saltillo, Mexico and San Antonio; Johnnie Mack Hasty, 23, of Luling; Walter Denny Turner, 26, of San Antonio; Douglas John Kirchner, 23, of San Antonio and Foster Gene Qualls, 29, of San Antonio.

Kirchner and Qualls were in the pickup truck. Turner, a pilot, who allegedly delivered the grass, was arrested later in the morning in Hondo when he was driving into Hondo and spotted the pickup truck at a service station. Apparently he thought Qualls and Kirchner had trouble, so he pulled in, and got the surprise of his life when the two narcotic agents gassing the truck told him he was under arrest.

The story began some time earlier that night when the pickup truck was spotted in Hondo and the plane landed at Hondo then took off again. Immediately after the takeoff the truck pulled out of town headed west and officers felt he would be coming back. Sure enough, they did and were stopped near the New Frontier Restaurant heading east.

According to a Monday story in the San Antonio Express, the complaint alleges that the elderly Hasty has bought five airplanes and paid cash for them, and that he reportedly had a contract to haul 30,000 pounds of marijuana.

## Humorous speaker

### at banquet

If homespun humor is what anyone likes to hear, then plan on attending the Hondo Chamber of Commerce Banquet on December 3.

Directors voted Monday to bring in Bob Murphey of Nacogdoches. Murphey is a past county and district attorney and travels throughout the country filling speaking engagements.

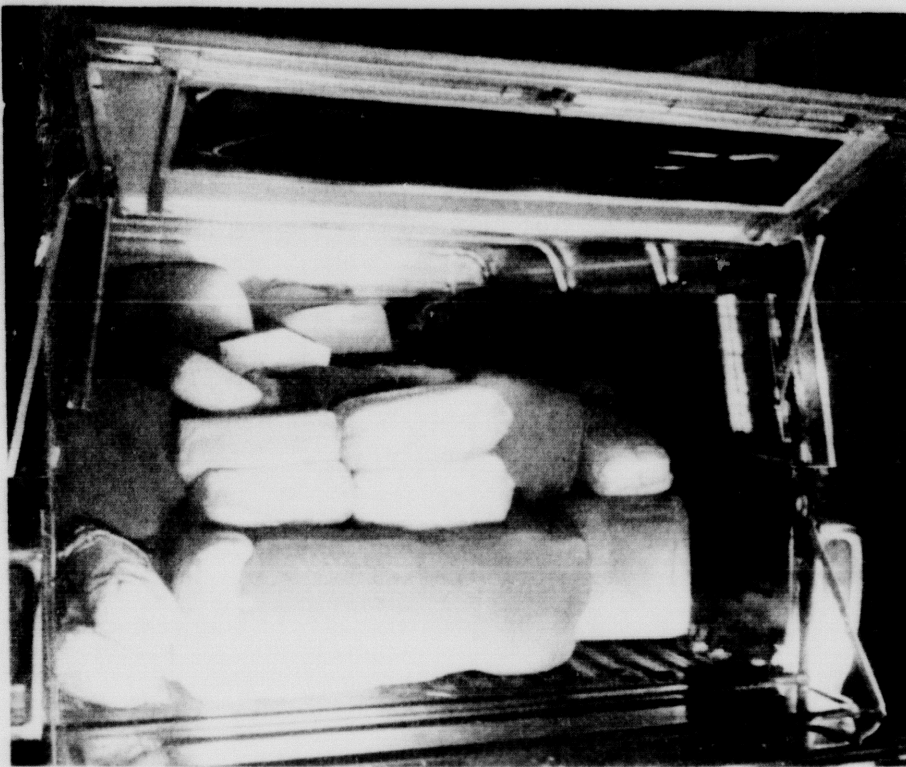

In answering the letter from Burnis Lawrence, Murphey said: "It's good to know you are president of your Chamber of Commerce ... and you certainly have my sympathy!"

"I would be happy to address your Chamber banquet in December. Since most folks don't want to listen to a speaker in the first place, I am in demand over the country since I am about as near no speaker as you can get."

Directors also voted to work with Albert Rowlett in sponsoring an estate planning seminar sometime in September. The seminar will be open to the general public at no charge.

Chuck Hackebell was appointed chairman of a committee to work with Willie Schmidt of Tarpley to see if the Chamber can, in any way, help publicize the dinosaur tracks located on his place. The committee will report back at the August meeting.

Henry Nietenhoefer reported briefly on the Agri-Business Seminar which will be co-sponsored October 16-17 by the Chamber and the County Extension Office.

**A LOAD OF GRASS**--These 970 pounds of marijuana would make many a cigarette for some pot smoker to get high on, but due to the alertness of the Hondo Police and federal narcotics agents it won't be making highs for anyone. It was confiscated in Hondo early Saturday morning in this pickup truck. [Photo by Burnis Lawrence]

Between now and 1976 I hope we can come up with many ideas of how our area can take advantage of this big celebration.

Chamber Corner

By Lillian Porter Executive Secretary

**TWO NEW MEMBERS** signed up last week and we are glad to see them. Welcome aboard, Tondre Transfer & Storage and Calvin C. Balzen.

Russell Lusk of Harlingen signed the guest book this week. He was in seeking deer hunting lease and said he hunted near Tarpley some 51 years ago.

We sure had some long distance calls this week: Claude Mitchum of San Antonio on deer leases, Glenda Raymond of Yancey, Diana Davis of Devine and Leona Weynand of D'Hanis all job openings. San Bennett of San Antonio on deer lease and Steve Mertz of Detroit, Michigan on Key Tag Return Service.

Now how about that! Lillian Schweers and Margaret Haegelin presented me with a framed District Seven Garden Club award, "for giving so generously of her time and abilities"

to Garden Club activities.

All I can say it is a pleasure to help an organization so dedicated to the beautification of our town. Hondo would not be the lovely town it is without their constant help and care. Thank you ladies for the award!

So typical of the many letters we receive on deer leases is this one:

"Dear Mrs. Porter: "I know I put you to a lot of trouble trying to find a deer lease for me, but I thought I would check with you and see if you may have some leases available. As you know I am looking for a lease that can handle anywhere from 4 to 8 men. Would like to have a camp house on it if possible. Thank you very much. Charles Stupka, Rosenberg, Texas."

Received brochures on Adams County, Colorado; Wursthfest in New Braunfels; and five different ones on New Orleans.

Letters to the Editor

June 19, 1973

Dear Mr. Lawrence:

We are getting a nice response to our volunteer plea for workers to keep the Medina Museum open through the summer. We plan to be open 9 to 5 Monday through Friday for three weeks, June 4 through 22nd.

First week the following gave their time: Colvern Huegele, Harry Filleman, Altha Gooding, Hedwig Kollman, Mr. and Mrs. Vernor Wiemers, Louise Taylor, Mrs. Hill, Emma Oefinger, Mr. and Mrs. Arthur Dale, Oscar Sauter, Iris Bader and Lela Laughinghouse.

Second week: Minnie Nietenhoefer, Bertha Schulte, Mr. and Mrs. Vernon Wiemers, Mr. and Mrs. O. A. Fly, Mr. and Mrs. O. M. Redus, Mr. and Mrs. Henry Lindeburg, Mr. and Mrs. Andrew Schweers, Patsy Breiten, Irene Marshall and Sally Brucks.

Signed, Ella Oefinger)

Dear Burnis,

I want to let you and all your readers know that the front page article in The San Antonio Express on June 21, 1973, regarding the sale of Stowell's Restaurant in Sabinal, was to say the last, very misleading. In the article the San Antonio Express was given all the credit for finding a buyer for the Restaurant. As the new owner of this restaurant, it is my responsibility to give the credit where it belongs - to the Hondo Anvil Herald. I saw the classified ad in the Hondo Anvil Herald and acted on it the next day. So, please take the credit for finding this very willing buyer.

I would like to show my appreciation for your classified ads by treating you and Patricia to your first dinner at the Wagon Wheel Restaurant. I hope to see you soon.

Sincerely, Jim Tomey

# Molly Finger, Steve Turner vows exchanged

Miss Molly Ann Finger became the bride of Steven Scott Turner Saturday evening, June 9, 1973, in Holy Cross Church, D' Hanis, with the Very Rev. Victor Schmidtzy, pastor, performing the double-ring ceremony.

The bride is the daughter of Mrs. Thomas Henry Finger and the late Thomas H. Finger of D' Hanis, and the groom is the son of Mr. and Mrs. Dwan Turner of Uvalde.

The bride was given in marriage by her uncles, Raymond and Henry Martin Finger.

Her attendants were Miss Martha Rothe, maid of honor; Mrs. Thomas Attaway, Mrs. Thomas Wilson and Miss Dana Turner (sister of the groom), bridesmaids; and Miss Sally Finger, sister of the bride, junior bridesmaid.

The groom was attended by his brother, Kim Turner, as best man; Nic

Turner and Rocky Turner, his brothers, and Thomas Wilson, as groomsmen. Ushers were Charles Burrell, Fred Schueling, Jr. and Pat Seifert.

Acolytes were cousins of the bride, Wade Finger and Keven Long; candle lighter was Steven Long. Tall candelabra with shasta daisies and fern were used as decorations in the sanctuary.

Preceding the processional march, interludes were played on the organ by Mrs. Amos Finger, followed by a soprano solo "On This Day" by Miss Marian Dee Risinger of San Antonio, cousin of the bride. One of the scriptural selections of the Nuptial Mass was read by the groom's father, Mr. Turner. Henry Martin Finger, baritone, sang Schubert's "Ave Maria" and "Our Father". At the Communion he was joined by Mrs. Alfred Rath, Sr., aunt of the bride, in a duet "Panis Angelicus".

It was at this point in the Mass that Steven Long immediately followed the bride, his god-mother, in receiving Holy Communion, her wedding day being also his First Communion Day.

The bride wore a floor-length gown of white silk organza; the fitted bodice had a bib of antique venise lace with a high neckline, and bishop sleeves ending in lace ruffles at the wrists. The A-line skirt with its dropped waistline extended to full length with a deep ruffle of antique venise lace at the hem. The cathedral-length mantilla of nylon illusion was edged with antique venise lace.

She wore a solid gold antique pin, an heirloom of the groom's family, which once belonged to his paternal great-great-grandmother King. With her bouquet of white daisies, pink rosebuds, and baby's breath, the bride carried her mother's Communion prayer book which the latter had carried in her own wedding, an heirloom gift from her grandmother, Molly Walsh.

The bride's attendants were in light-blue old-fashioned style cotton dresses with dainty embossed floral stripes; the round yokes were edged with heavy white lace and the short puffed sleeves ended in ruffles at the elbow. The full-length skirts also ended with a deep ruffle and were tied with a narrow sash at the back.

They carried white fans of lace-edged net centered with daisies and pink roses.

Mitzie Turner, sister of the groom, and Terri Long, cousin of the bride, registered approximately 400 guests at the reception in St. Dominic Hall following the wedding.

The bridesmaids' bouquets were artistically arranged on the table. A buffet supper was served from three tables of assorted foods. At the bride-and-groom's table where the wedding cakes were served with punch and coffee, the following assisted the guests: Misses Ellen Rothe, Marcy Garrison, Debby Cheney, Bette Zinsmeyer, Leah Metzenthin of Brownsville, Frances Seilheimer of Priddy, Mrs. Jim Ruby, and Mrs. David McGehee. The table had a centerpiece of daisies and pink roses and a net cloth over blue.

For traveling, the bride wore a pink suit with white accessories and a corsage of pink roses. After a honeymoon trip to Dallas, they will be at home in Kingsbury, where he is employed.

A graduate of Hondo High School, the groom attended Southwest Texas Junior College at Uvalde. The bride, a graduate of D' Hanis High School, is a student at Southwest Texas State University, San Marcos, majoring in elementary education. She is a member of Kappa Delta Pi Honor Society.

Mr. and Mrs. Steve Turner

## This week All she wrote by Edna McDade

June rainfall in CC had broken an 86-year old record for the month as of Tuesday, 26th -- and as of this report we have four more days to go but the sun is making time today.

Smithsonian Meteorological Tables measure the rain's total weight and gallons based on inches. Thus, a one-inch rain deposits 113 tons or 27,154 gallons on each acre of the area designated.

Rain reporters can take it from there!

\*\*\*

The rains have been giving the area's roads a bad time. Good thing that our Texas Highway Dept. has such dedicated and efficient maintenance men as the 25 from Hondo whose names were mentioned in the June 14 report made by Maintenance Supervisor ALBERT W. SCHWOPE.

The Highway Commission recognized the contribution made by the state's 250 maintenance sections to the safety and beauty of our highways. As motorists and passengers who enjoy the "fruit of their labors", we could each add our own appreciation by being mindful of our individual responsibilities as recipients of our "highway taxes at work".

\*\*\*

If Medina County runs short of enough mosquitoes to keep their spring and summer tourist purple martins well fed, the coastal supply sources are loaded just now and eager to divide.

No down payment and no attempt to collect later.

The SAMFORD Brothers [DOUG & TRAVIS] really garnered the honors in the 4H Horse Show. And Doug sits "tall in the saddle" as all sure-enough Texas horsemen are supposed to do.

Given time, Travis might catch up with his big brother one of these days.

\*\*\*

This paragraph pauses to inquire how Uncle-Uncle CAM-CAM MOSS-MOSS is reacting to the double avuncular honors so happily thrust upon him May 21, 1973.

In the winsome ways that little girls have, RACHEL MARIE and RUTH ANN STEUBING are probably even now beginning to twine their unsuspecting uncle around their little fingers -- one at a time, of course.

As for Great-grandmother "Gussie" [Mrs. E. T. Cameron], think of her special claim-to-fame. Her late husband was a twin, she has twin granddaughters, and now twin great-granddaughters!

In the announcement of the babies' birth, no "credit" was given to Great-aunt MARY RUTH CAMERON and the new twins will probably find her the most devoted and indulgent relative they have. Their mother and Aunt Linda can testify to that!

\*\*\*

I like what a 75-year old California teacher said about age, having retired for the second time after teaching for 56 years:

"Age is a question of mind over matter. If you don't mind, it doesn't matter!"

\*\*\*

All sorts of recipes offering substitutes for these less-beefy days are appearing in magazines and newspapers. D'ye ken HAGGIS?

Definitions of the Scottish dish range from a boiled-up batch of sheep's "intimacies"--heart, lungs, liver, tripe and chitterlings and whatnots, says one recipe--and include the suggestion that it "goes easier washed down with a bit of Scotch."

Haggis, which is traditionally boiled in the maw of the sheep, is also described as "a boiled butcher's dustbin".

Anybody for seconds?

Recently, the American Optometric Assn. asked children to draw pictures and answer the question "What is the joy of seeing?"

Here are a few answers: "The joy of seeing is pears and apples growing on trees. Little by little the fruit grows bigger and that is the joy of seeing" . . . "Take care of your eyes. If you don't have them, you're out of luck. So take care of them because they are your world and a gift of God." . . . "The joy of seeing is butterflies flying around and clouds hanging over it all." . . . "The joy of seeing is seeing a fish that you catch."

HALF-CENTURY NOTE: This from a 1923 ANVIL HERALD:

"Jennings Cleaners and Dyers are offering this inducement to local housewives: In a doctor's opinion, wet wash is sanitary. Ladies, you can have 20 pounds of family laundry done here for just \$1.00. This means a saving on wood, water, soap, starch, blueing, tubs, pots, meals, smoke, fires, tiredness, sickness and many other things you don't stop to consider."

In another item, a San Antonio laundry advertised laundry service by parcel post. The postage rate then was five cents for the first pound, plus one cent for each additional, with return postage paid. Laundry prices ran from 7c to 15c a pound, which included wearing apparel. The ad said the postman would even collect the bill!

Know any postmen who might be wishing for a return of the good old days?

## The Garden Memorial Provides For You....

The most secure protection for your loved ones in above-ground crypts. Architecture of a classic design will lend a classic sense of beauty that cannot be outdated. The finest and strongest building materials of steel, granite and reinforced concrete will be used with the most up-to-date construction methods to guarantee a building—not only of beauty—but of enduring dignity.

### Endowed Perpetual Care

Perpetual care is assured for those you love. This memorial is protected by a trust fund, which provides maintenance forever.

## This Beautiful GARDEN MEMORIAL With Perpetual Care

Will Be Built In  
**St. John's Catholic Cemetery**  
**Hondo, Texas**

### Peace Of Mind

To provide for your loved ones a final resting place with crypts sheltered from unpleasant weather and with crypts protected from dampness and moisture, is a sincere expression of your reverence and love. Selection of such a memorial before need is a duty we owe to ourselves and our families. In addition, it affords the peace of mind that comes from the knowledge that personal obligation has been fulfilled. . . . That those we love will not be faced with the responsibility of making such a decision during a period of emotional stress.

### Crypt Burial Is Scriptural, Historical

Our Lord was laid in a rock-hewn crypt, and early Christians followed this custom. Wealthy people have used this type of burial almost entirely for many centuries and most of our national heroes are buried in stone tombs or mausoleums. The Garden Memorial, now for the first time, provides this desirable above ground form of burial at costs which compare with average under the ground burial.

### The Better Way

Endowed care is assured for those you love. This Memorial will be protected by an irrevocable trust fund to provide continual maintenance. Crypt spaces can be purchased with only a small down payment and up to four years to pay the balance. As a far-thinking person you should know that a memorial estate in this magnificent memorial is well within the means of the average family. A practical investment. . . . The program for the memorial crypts requires that all desired spaces be contracted for prior to the date of construction. Therefore, interment spaces are limited to those who make selections before construction begins. Provide now a final resting place for your loved ones in this imposing memorial.

The size of the memorial will be determined by the number of crypts reserved during this survey, before construction begins. Only those families who subscribe at this time will have memorial interment privileges. Various Pay Plans Available — Up To 4 Years to Pay.

SAINT JOHN THE EVANGELIST  
CATHOLIC CHURCH  
2102 AVENUE J  
HONDO, TEXAS

July 1973

My Dear Parishioner,

The Parish Council and I are pleased to announce that the building of a beautiful garden Memorial in St. John's Cemetery has received the approval of His Excellency Most Reverend Francis J. Furey. We have entered into an agreement with Southern Memorial Company of New Orleans, La. to conduct a survey of our Catholic community to determine the size of a Garden Memorial. Construction would begin when the size of the memorial is arrived at upon the completion of the survey.

The Southern Memorial Company has already completed successful surveys in Wallis, Granger, Bryan, El Campo, Yoakum, Weimar, New Braunfels, Hearne, East Bernard, Cameron, and in about ninety other parishes throughout the country. All of the above memorials have been built and they are beautiful additions to the parish cemeteries.

Perpetual care of the Garden Memorial will be assured through an endowed care trust fund which is to be used solely for the care and maintenance of the Memorial. This fund will be comprised of 10 percent of the proceeds from each selection made in the Garden Memorial. The interest and earnings from this fund will be more than ample to maintain the memorial through the years.

Representatives of Southern Memorial Company will make a survey of our parish to explain and answer questions about the memorial. Remember, the size of the Memorial will be determined by the number of Crypt selections made BEFORE construction begins. It will be worth your time to learn more about this worthy project by mailing in the enclosed card and envelope as soon as possible. It shall also be a monument to the love and devotion of this generation.

I trust that you will all show our famed Texas courtesy to the representatives who will contact you.

Sincerely yours in Christ,

*Rev. George H. Stuebgen*

The old saying "A civilization may be judged by the way they CARED for their dead" is coming back after decades.

Ancient history would be largely a myth but for the way the dead were cared for.

The magnitude of this Memorial is outstanding. It is by far the most modern, bold development conceived in this section.

#### IT IS WISE TO ACT NOW

All spaces will be reserved prior to date of construction.  
Therefore, space in the Garden Memorial are limited to those who make selections before construction begins.

## Rabies still "most feared" disease

Austin -- Of all the diseases which may be transmitted from wild animals to man, rabies is the most feared.

Texas State Department of Health Laboratories report that during the first four months of 1973 there have been 85 confirmed cases of animal rabies. Of that number, 61 involved wildlife -- 45 skunks, 11 foxes, one coyote, two raccoons and two bats.

Texas had 343 cases of rabies last year -- 281 in wildlife.

The state led the nation in 1971 with 323 rabies

incidents, which was a far cry from the 658 cases reported in 1961.

The Texas Parks and Wildlife Department reports that the chances of transmitting rabies to humans are slim. Most of the public will never come in contact with the disease unless their occupation involves handling sick animals.

The last documented death from natural exposure to rabies in Texas was in 1962. Last year one death was reported which was attributed to exposure to the rabies virus in a laboratory.

Rabies is caused by a virus which requires from one to six months to incubate within an animal.

The disease begins with a depression of the spirits and swelling of the lymphatics in the region of the wound. Choking and spasmodic breathing follows with increasing spasms of the respiratory muscles.

Fever, mental derangement, vomiting and secretion of saliva often accompany the disease. Death usually occurs within two to five days after the appearance of the first symptoms.

Positive diagnosis of rabies involves killing the suspected host to examine brain tissues.

Fortunately, however, man seems to be highly resistant to rabies and only 20% of those bitten by a known rabid animal will contract the disease.

Treatment for rabies in man is a painful series of shots in the fatty deposits of the stomach.

Why bother with such painful treatment if man has only one chance in five of contracting the disease?

Once the first symptoms appear, the only treatment for the disease is making the individual as comfortable as possible because death is almost inevitable once the disease reaches such an advanced stage.

The rabies cycle begins in Texas each spring when migrating bats return from Mexico to their homes. It has been estimated that five percent of all bats returning to Texas are infected with rabies.

## OUTDOORS IN TEXAS

BY VERN SANFORD

'Tis said that in the Spring a young man's fancy turns to "fly fishing" -- up North.

Really there's good reason for such a statement, too, for in many of the colder areas fly fishing begins in the Spring and lasts through the Fall.

However, in many states, including Texas, there's an increasing craze for bass-bugging with fly rods in the shallow waters along the shorelines.

But all this enjoyment is not limited to the young man--oldsters are fond of fly fishing too, whether it be for trout, bass or those feisty little bluegills.

Casting with a fly rod and reel is really a sport for all anglers who like to play their catch. This type of fishing is especially attractive to those who hie off by themselves and work the waters under the overhanging willows, or whip a fast mountain stream.

There is nothing particularly new about fly fishing. From time-to-time someone comes up with a new adaptation. Then, about every year there is some kind of improvement--usually in available equipment. But, in the main, the principle is the same.

Fly fishing is practiced mostly on the cold water trout streams of the North, both East and West. Here you find the purist who insists that there is only one way to catch fish--and that is with their favorite tackle, their special equipment and certain type of water.

But fly fishing is fast becoming a Texas sport too--for many anglers--about nine months of the year.

In the warm waters of Texas, many bass fishermen are using fly rods, with shooting taper lines, to haul in fighting blacks.

On the other side of the lake are Texas anglers using ultra-light spinning equipment. Yes, even the big-bass boys (or have you looked lately?).

Then there's the fellow who gets out only a few times a year and whips the streams, sometimes with borrowed, and more often than not with unbalanced equipment.

With trout (both rainbow and brown) being stocked in Texas rivers, trout fishing is growing rapidly in

popularity--and the flyrodder is much in evidence. This is especially true in the areas of recent stocking of the Brazos and Guadalupe Rivers, by Texas Parks and Wildlife, below Possum Kingdom and Canyon Lake dams.

Selecting the rod and reel for fly fishing is just as important as picking the proper spinning or casting equipment. Fly rods generally come in lengths from 7 1/2 to 9 feet. Average fly fisherman usually selects an 8 1/2 foot rod, or 7'8" rod with a light tip and plenty of backbone.

There's also a wide assortment of reels. Although the reel on a flyrod serves only as a line holder, some fishermen prefer a good automatic, with an aluminum spool that combines light weight with adequate line capacity, silent wind, free stripping and fast takedown. Line with a front taper helps put bass bugs out a little farther, while the level line is best for trout streams.

Although there are many standard flies, the purists strike out for perfection. Many tie their own flies, with multicolored tackle. That's fine for the man who insists on the finer arts. But you can also fool trout with an ordinary bug bought over the tackle counter of your favorite sporting goods store. Or, for that matter, you can't beat a red worm for filling the creel.

More important, perhaps, than the lure, is the efficiency in using fly equipment--mastering the technique of casting with a fly rod.

It's not difficult to do with a little practice. Every rod and reel you buy includes simple instructions. If you will follow these and study other published material, or observe other casters, you'll be surprised at how quickly you too can master fly casting.

Take time off for a few practice sessions with a fly rod and reel at some casting club, or on a vacant lot -- or better still, over water.

You'll never learn EVERYTHING about fly casting, any more than you can learn everything about any other kind of fishing. But you can improve your methods with serious practice.

## Welcome Wagon revived in Hondo

After several years of inactivity the Welcome Wagon has again been revived in Hondo and several newcomers to the city have been greeted by Leni Johnson, Nell Young and members of the Junior Service League.

Newcomers also have received invitations from members of the Hondo Retail Merchants Association to drop by and pick up some "get acquainted items".

"The response from those we have contacted has been terrific," Mrs. Young said Tuesday morning when she provided the

Those contacted include: John Ray and wife Patty and their five-year old daughter, all from Laredo with Del Rio Flying Service; Mr. and Mrs. Alfred Rager and four-year old son Tony from Dallas with DRFS; Jim Gordon and wife Irene and daughters Robin 9, Kim 7, from Laredo with DRFS.

## Chamber Corner

From down Biloxi, Mississippi way comes this request:

"Dear Sirs:  
"I may be transferred to San Antonio shortly. We prefer living in a smaller community within driving distance and Hondo seems ideal.

"I would like some information on the area. We'll have to rent before we buy, so we need to know the availability of houses to rent. We prefer country property.

"Also, what are the approximate prices per acre, either vacant land or with a three bedroom house?

"How are your schools insofar as sports available for high school girls.

"I'd appreciate any information you can give me. Sincerely, C. M. West."

Naturally, we have already answered Mr. West.

And from Raleigh, North Carolina:

"Dear Sir:

"At your earliest opportunity, please forward us a listing of names and addresses of the club presidents in your town. If there is a charge for this information please bill us accordingly.

"Thank you for your attention to this matter. Sincerely yours, Alton G.

Holland Sr., News Publishing Company."

Done, also.

We have received some interesting brochures of beautiful places this past week. For example: Coahuila, via Eagle Pass, map; Aspen, Colorado; Heritage Garden Village, Woodville, Texas; Colorado Travel Agency, Colorado Tourist Guide and more Colorado highway maps.

Phone calls came in from Detroit, Michigan on a key tag proposition that will be discussed by the Board, Yancey Russell of Devine checking on TEC job order, someone checking on a city directory and S. A. Collazo of San Antonio checking on deer hunting.

Now about the other: call in cards answered 3, job applications 11, job referrals 6, other job calls 4, rental calls on mobile homes and houses 16, Salvation Army 7, deer lease requests 7, deer leases 1, deer leases mailed out 66, other deer lease calls 2, telephone numbers and addresses 2, welcome wagon 2, social security 1, inter office 14, other requests 10.

Outgoing mail went to G. B. Vargas of Laredo, Thoms Harrison of Hondo, Pat Vance of San Antonio, Bob Murphy of Nacogdoches.

## Donald Stevens graduates at FBI Academy

Among those attending this session was Donald K. Stevens, Supervising A-

gent of the DPS Intelligence Service in San Antonio.

Stevens is a 1949 graduate of Hondo High School. He was formerly stationed in Uvalde and Lufkin as a Texas Highway Patrolman and Texas Highway Patrol Sergeant.

## Country Music is coming to San Antonio

Country music is coming to San Antonio to brighten the summer entertainment scene on Paseo del Rio.

"Great Country Roundhouse Jamboree", the first offering of country talent on the River, is presented by Bexar Kiwanis Club in conjunction with Radio Station KKYX each Thursday evening through August 2nd.

Emcee Bill Rohde of KKYX, Great Country '68, announced that George Chambers and his Country Gentlemen will headline the show, with big name stars featured each evening. Signed for the show are Jeanne Pruett, June 21st, Johnny Duncan and the Matheny Brothers on June 28th, with Tanya Tucker, Howard Crockett, and Darrell McCall and others to follow. Also, featured are Ronnie Sessions on July 5, Slim Roberts and The Generation Gap, July 12, and on July 26 will be Red Steagel.

The format calls for a two-hour show at Villita Assembly Hall beginning at 8 p.m. with music until 11 p.m. Tickets are priced at \$2 for adults, \$1 for military and children under 16 are admitted free with parents. Tickets may be purchased at the Bexar Kiwanis Club offices, 114 Stumberg, at the L&M Western Stores, at Kallison's Western Wear, or may be purchased at the

door. Bill Jonas, President of Bexar Kiwanis, announced that profits from the summer show will again go to the Opportunity Workshop and Training Center for Retarded Youth, 227 W. Drexel, in San Antonio.

Food and beverage will be available each evening beginning at 6 p.m. in the patio of Villita Assembly Building with entertainment during the supper hour provided by local "grass roots" groups, such as the "show-stopping" 12-year old mini-star Bobby Flores, according to Chairman D. L. Brown.
